The Limited Warranty does not apply to components which are separate from the Equipment, ancillary equipment and consumables, such as, for example, cables, fuses, wires and connectors, whether supplied by Tigo or others. Some components may carry their own manufacturer warranty.

The Limited Warranty only applies to a customer who has purchased the Equipment from an authorized seller of Tigo, or, in case of module or inverter embedded Equipment, from an authorized seller of the module or inverter manufacturer, respectively, for use in accordance with its intended purpose. The Limited Warranty may be transferred from the customer to any assignee, and will remain in effect for the time period remaining under the foregoing warranties, provided that the Equipment is not moved outside its original country of installation and any reinstallation is done in accordance with the installation instructions and use guidelines accompany the Equipment and available on the [Tigo Resource Center](#) (collectively the "Documentation").

The Limited Warranty applies to all versions of the TS4-F if and only if it is being used with Tigo's RSS Transmitter or an Inverter with a built in RSS Transmitter certified by Tigo. No warranty is provided if the RSS Transmitter is used with a non-certified 3rd party receiver.

During the Warranty Period, if Tigo determines, in its sole and absolute discretion, through inspection, the existence of a defect that is solely due to defects in Equipment material or workmanship, the Equipment will be considered defective and will be subject to remedy under the terms of this Limited Warranty.

If a remedy is allowed for defective Equipment under the terms of this Limited Warranty, Tigo will, at its option, either issue a credit note to the customer for an amount up to the appropriate residual

market value of the Equipment, as determined by Tigo, for use towards the purchase of new product, or repair or replace the defective Equipment. Tigo will, at its option, use new and/or reconditioned parts in repairing or replacing the defective Equipment. Tigo reserves the right in connection with in repairing or replacing the defective Equipment to use parts or products of original or improved design in such repair or replacement. If Tigo repairs or replaces defective Equipment, this Limited Warranty will continue for the repaired or replacement Equipment for the remainder of the original Warranty Period or ninety (90) days from the date of Tigo's return shipment of the repaired or replaced Equipment, whichever is later. This Limited Warranty does not include labor or material costs related to un-installing the defective Equipment or re-installing the repaired or replacement Equipment. This Limited Warranty covers the costs of shipping repaired or replacement Equipment from Tigo to customer and the shipping cost of returning defective Equipment to Tigo, via a non-expedited freight carrier selected by Tigo. The Limited Warranty does not cover, and Tigo will not be responsible for, shipping damage or damage caused by mishandling by the freight carrier, and any such damage is the responsibility of the freight carrier.

The Equipment is designed to withstand normal operating conditions and typical wear and tear when used for its original intent and in compliance with the Documentation and the installation and operating instructions supplied with the original Equipment. The Limited Warranty does not apply to, and Tigo will not be responsible for, any defect in or damage to any Equipment that: (1) has been misused, abused, neglected, tampered with, modified, altered, opened, or otherwise damaged, either internally or externally; (2) has been improperly installed, operated, handled, maintained or used, including use under conditions for which the Equipment was not designed, use in an unsuitable environment, or use in a manner contrary to the Documentation or applicable laws or regulations; (3) has been subjected to fire, excessive water exposure, fire, pest damage, accident, generalized corrosion, biological infestations, actions of third parties, acts of God, or input voltage that creates operating conditions beyond the maximum or minimum limits listed in the Documentation or the Equipment specifications, including high input voltage from generators, lightning strikes or power surges; (4) has been subjected to incidental or consequential damage caused by defects of other components of the system into which the Equipment is integrated; (5) has been used in combination with other equipment, items or materials not permitted by the Documentation or in violation of local codes or standards; or (6) had the original identification markings (including trademark or serial number) of the Equipment have been defaced, altered, or removed. The Limited Warranty does not cover cosmetic, superficial, technical or design defects, or shortcomings, which do not materially influence or affect the energy production or degrade form, fit or function of the Equipment. Tigo's maximum obligation under this Limited Warranty for each piece of Equipment is limited to the original cost of such Equipment.

No rights under this Limited Warranty will be available unless all personnel installing or replacing Equipment have completed the TS4 Certification Course available online at tigoenergy.com/ts4key. Upon successful completion of the course, a certificate will be issued via email to the trainee. Tigo retains a record of certified personnel for these Limited Warranty purposes.
